## II. Return as of April, 2019

The net return in US dollars was 0.73% in the month. This was due to the performance of the Sovereign and Government Related Bonds, -0.53%, Inflation Indexed Sovereign Bonds, -0.36%, US Agencies MBS, -0.12%, Corporate Bonds, 0.50%, High Yield Bonds, 0.97%, and Equities, 3.42%. The negative return in US dollars experienced by Sovereign and Government Related Bonds was explained by the negative effect of the depreciation of the currencies against US dollar in which the instruments are invested. The return experienced by Inflation Indexed Sovereign Bonds was due to the negative result in local currency. The positive returns of Corporate Bonds, High Yield Bonds and Equities portfolios were explained by the positive return in local currency in spite of the negative effect of the depreciation of the currencies against US dollar in which the instruments are invested. Finally, the monthly return of the fund in pesos was 0.22%. Year to date return was 5.35% in US dollars and 2.62% in pesos, while the annualized return since inception was 3.57% in US dollars and 5.55% in pesos.

(a) Time Weighted Return (it is calculated as the growth rate of the funds that were invested throughout the period).

(b) It is calculated since January 22, 2019 for US Agency MBS and High Yield portfolios.

(c) Performance since inception for: Sovereign and Government Related Bonds, Inflation Indexed Sovereign Bonds, and Equities is calculated since December 31, 2011. Performance since inception for US Agencies MBS and High Yield Bonds is calculated since January 22, 2019. Performance since inception for the total portfolio, exchange rate and return in CLP is calculated since March 31, 2007.

(d) Return in CLP corresponds to the sum of the percentage change of the exchange rate CLP/USD and the return in USD.

Returns for periods of more than one year are compound annualized rates while those for less than a year correspond to the change as seen in the stated period. With a view to meeting high standards of transparency and providing a better assessment of the gains or losses on investments, the Ministry of Finance discloses the fund's return in different time horizons and currencies. With respect to the horizon, it is important to note that, in keeping with the medium- and longterm investment policy, the return assessment should focus on that period, disregarding fluctuations that may occur monthly or quarterly. With regard to returns expressed in different currencies, the return in US dollars allows for an assessment which is more in line with the investment policy given that the fund's resources are wholly invested abroad and in foreign currency. The return in Chilean pesos is also disclosed. This return reflects changes in the peso-dollar exchange rate and, therefore, may experience greater fluctuations. Finally, as with any investment, returns obtained in the past do not guarantee future positive results.
